Effektivt hygienskydd med flexibla system

effective hygiene protection with flexible systems

Hälsa är vår mest värdefulla tillgång. I tider med ökad risk för smitta måste företag ta till särskilda åtgärder, för att förhindra droppinfektioner bland anställda och i kundkontakt erbjuder Pauli + Sohn olika uppsättningar effektivt som nys- och hostskydd - till exempel för kunddiskar och mottagningsområden.

mobil eller som en stationär installation

De flexibla systemen för skydd mot droppinfektioner finns som mobila stativ eller stationära moduler - valfritt med glas eller akryl med olika storlekar och tjocklekar, med eller utan öppning och med olika utseenden. Systemen levereras antingen komplett som ett set inklusive glas/plast och tillbehör, eller enbart beslag. De olika systemen är enkla att montera och har en säker, funktionell och modern design. Produktion i Tyskland - med en hög standard av kvalitet och med en pålitlig leverans tillgänglighet. Lita på oss med säkerhet på arbetsplatsen!

Fördelar med detta system:

- monteringsystem för mobila och stationära installationer (inklusive beslag och panel)
- Komplet set för 1, 2 resp 3sektioner
- individuella designalternativ
- brett utbud av finish på beslag
- specifika utformningar på begäran
- tillverkad i Tyskland - högsta kvalitet, säkra leveranser

Health is the most valuable asset. In times of increased infection by viruses or flu pathogens, companies must take special protective measures. To prevent droplet infections among employees and in customer contact, Pauli + Sohn offers you various sets for hygienically effective sneeze and cough protection - for example for sales counters, reception areas and counters.

mobile or as a stationary installation

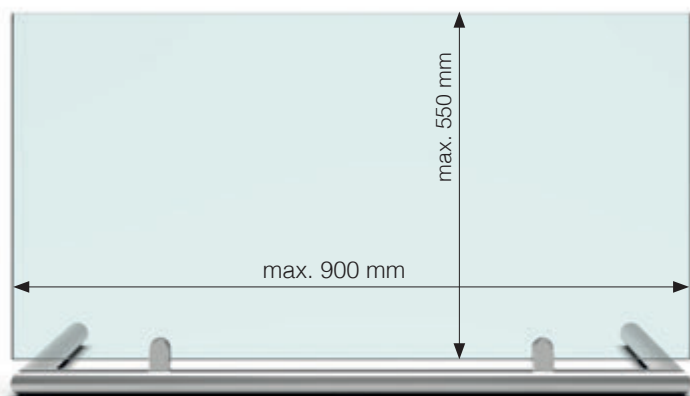

The flexible systems for protection against droplet infections are available as mobile stands or stationary modules - optionally with glass or acrylic glass, with variable pane sizes and thicknesses, with or without pass-through and with different surfaces. The systems are conveniently supplied as a set including a measurement sheet and accessories - from connectors, clamps and posts to corresponding screws. All systems are easy to assemble and also have a safe, functional and modern design. And made in Germany - manufactured to a high standard of quality and as a rule, reliably available. Place your trust in us with safety at the workplace!

advantages at a glance:

- mounting systems for free-standing and stationary installations (including accessories and measurement sheet)
- sets from 1 pane up to 3 panes
- individual design options
- wide range of colours for the hardware
- special designs on request
- made in Germany - short transport routes, reliable delivery
